

Don't just 'survive' the day – when you can 'Thrive' every day!

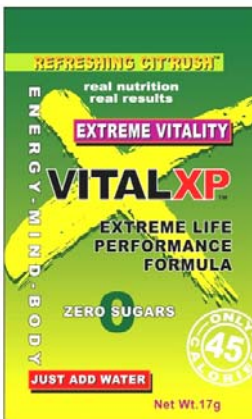

VITALXP™

Mind & Body Life Performance Nutrition Drink

VITAL XP simply redefines what an energy drink is by delivering energizing results that you can really feel... in just minutes. And since this is from real nutrition, results last up to an incredible three to six hours!

True energy or "being in the zone" occurs when both your mind and your body are functionally balanced and operating as one. Optimal physical and mental performance only occurs when a number of physiological steps take place in your mind and body, and these are maintained.

So-called 'energy drinks' and 'flavored waters', will utilize sugar, a few herbs or minimal amounts of minerals, and often a large amount of caffeine to falsely 'jolt' the body 'up'... which also causes it to 'crash' down in about 30 - 40 minutes. This may give you a very brief 'high', however over time; this can actually reduce your body's natural ability to create its own energy in the future.

By contrast, VITAL XP provides exactly the right type and the right amount of Amino Acids, plus B Vitamins and Minerals that work synergistically together, to trigger a complex, biochemical reaction to really elevate your mind and your body – and to help maintain this state for up to an amazing 3 to 6 hours!

Certain Amino Acids in the VITAL XP formula enhance your brain function, memory and mental alertness, while others improve your attitude and help to reduce sugar cravings. They all work together to increase your energy levels, endurance and shorten your muscle recovery time.

Acetyl-L-Carnitine together with Alpha-Lipoic Acid has been shown in a recent study to help revitalize deteriorating mitochondria within cells. This enhances the efficiency of these 'biological engines' that convert carbohydrates, fats and proteins into sustainable energy. Restoring the mitochondria also helps promote brain cell function, metabolism, and reduces the production of destructive oxidants to slow or even reverse cellular aging.

The B Vitamins complex acts to maximize your energy and metabolism by converting fats and carbohydrates into energy. They also enhance your brain function, promote a healthy nervous system and cell function, plus help reduce the effects of daily stress.

Minerals provide the critical electrolyte replacement for more efficient energy production, nerve, muscle, and heart function as well.

VITAL XP does exactly what it claims to do... it puts you in that true zone of mental and physical balance for optimal performance and vitality - every time.

VITAL XP comes in single serving packs to simply mix with 12-16 ounces of water, so you can have it with you at home, at work and when you want to play full-out at the peak of your ability!

And VITAL XP has a great refreshing cit'rush flavor, with no sugar, no guarana... and no after-taste.

With VITAL XP you'll experience a significant mental and physical boost in just minutes – and it will last up to three to six hours.

VITAL XP is the only life performance nutrition drink. Now it's your turn to experience optimal personal performance from achieving your own personal mind and body energy zone.

VITAL XP is real science and nutrition, for real results. It was created for people who really care about what they put into their mind and body, to help them thrive every day!
