

Cardiovascular Formula

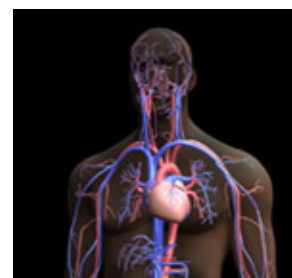

Supports the cardiovascular system, with healthier blood and blood flow, to help reduce the risks of hypertension (high blood pressure), stroke and coronary heart disease including chest pain and heart attacks.

An exclusive formula of high-potency Perilla Oil – rich in Omega-3 (ALA), Policosanol, Octacosanol, and Soy Polypeptides. Each proven effective.*

Take 3 capsules twice daily, to help:

1. Reduce LDL (bad) Cholesterol
2. Raise HDL (good) Cholesterol
3. Lower Triglycerides and Fibrinogen
4. Maintain a healthy heart and regular beats.
5. Lower inflammation throughout the body to achieve healthier C-reactive protein levels.
6. Improve blood fluidity and blood flow, plus reduce the formation of blood clots by decreasing platelet stickiness.
7. Provide heart healthy essential fatty acid, Omega-3 (ALA) that only 1 in 6 people sufficiently consume.
8. Enhances microcirculation to support delivery of oxygen and nutrients and the cleansing of trillions of living cells.
9. Omega-3 also helps protect against colon cancer and breast cancer; plus helps reduce colitis, obesity, asthma and arthritis.
10. Increase aerobic capacity and oxygen uptake to support exercise.

180 Capsules per bottle / 30 day supply

*Each of these synergistic all-natural elements have been shown to be highly effective; as confirmed by independent scientific studies.
